

## Children For the Oceans Newsletter

Visit our blog

### **Children for the Oceans ("CFTO") on the national channel:**

On May 14th, the TV channel TF1 released a broadcast about Children for the Oceans and Thomas' actions within the NGO as well as his fight for the Oceans. This broadcast explains the reasons why Thomas decided to create the NGO, Children for the Oceans's missions and how crucial it is to involve kids and set up a worldwide community of children acting as ambassadors for the protection of the Oceans.

You can find this broadcast on the TF1 website: <https://www.tf1.fr/tf1/le-20h-le-mag>

On their facebook page: <https://www.facebook.com/TF1leJT/videos/832179440491028/>

On CFTO facebook page by clicking on the broadcast image below.

### Children for the Oceans on the magazine Geo

The magazine Geo released an interview on the occasion of the World Ocean Day at the *Aquarium Tropical de la Porte Dorée*.

You can find this interview by clicking on the interview image below:

### June CFTO actions:

On June 6th, Thomas and CFTO received **the sustainable development award** from the Crédit Agricole.

Thomas and CFTO was the godfather of the event organised on June 8th at **the Aquarium Tropical de la Porte Dorée** in Paris for the World Ocean day with Valérie Masson, Intergovernmental Panel on Climate Change's representative.

CFTO is performing **new awareness sessions** in the Toulouse area.

New ambassadors of the Oceans have recently joined the NGO. You can learn mor about Eugenia, Joe, Marsella, Charlotte and Jakob on our website:

---

### What about next month?

On the last week of June, CFTO will participate to the **festival de la mer et du littoral** of the Aquitaine region.

On July 2nd, Thomas will be in Nantes at th e **Mer XXL exposition** to present CFTO and he will join the "collectif génération mer" linked to the french ministry of sustainability.

---

## Key facts about the oceans:

On April the 27th, the Intergovernmental Policy Platform on Biodiversity and Ecosystem services (IPBES) published a report about the state of biodiversity on earth.

This alarming report underlines that 66% of the marine biodiversity is impacted by human activities and the climate change. Every continent is largely impacted and the consequences could be disastrous for the oceans.
